7+ Years in Software | QA + Technical Perspective | Mobile & Web | API Testing | Advanced English | Enterprise-Ready

PROFESSIONAL SUMMARY

QA Engineer specializing in mobile and API testing for high-trust digital products. Currently at Bancolombia, I lead quality assurance for flagship banking applications serving millions of users. My unique background combines full-stack development expertise with QA mastery, enabling deep technical understanding and root cause analysis. Proven track record in fintech, payments, and enterprise systems where reliability is non-negotiable.
